

Get finance from **R250 000** to **R50m** tailored to your business's needs.

Backing Real Potential

Business Partners Limited takes a holistic approach to risk funding for entrepreneurs

Introduction

Securing funding is one of the biggest challenges entrepreneurs face. Without the right amount of capital, scaling a business is virtually impossible. Many businesses turn to bank loans or grants, but these are not always accessible or fast enough.

Investing in the Bigger Picture

Business Partners Limited assesses applications holistically, looking beyond checklists and considering entrepreneurial vision, experience and long-term sustainability.

Commercial Property Finance

Business Partners Limited provides up to 100% commercial property finance and supports early-stage development costs for residential or commercial property developments intended for resale.

Identifying True Opportunities

The company focuses on growth potential and proven performance rather than relying solely on traditional collateral.

Empowering Visionary Entrepreneurs

Flexible funding of up to R50 million helps businesses unlock growth opportunities and build long-term impact.

“Scaling a business is about more than balance sheets – it’s about seizing strategic opportunities, leveraging experience, and having the resilience to grow.” – René Botha.
